Skills

- Frontend: Solid React (TypeScript & JavaScript) experience, with exposure to Next.js, Tailwind CSS, and libraries like Ant Design, MUI, Chakra UI, and Shadcn UI.
- Backend: Hands-on with Node.js and Express.js, using common packages for routing and authentication.
- Python: Comfortable with Flask for APIs and web apps; explored FastAPI for lightweight APIs and WebSockets.
- Databases: Familiar with SQLite, InfluxDB, and general SQL use.
- Building Automation: Exposure to Desigo CC, FIN Framework, and BACnet integration via the BACO library.
- Visualization: Used Fabric.js to build interactive canvas-based UI components.
- Tools: Proficient in Microsoft Office, Git, and basic CLI workflows.
